Sample Survey Organisation, the Planning Commission estimates the number of people below the poverty line in the rural as well as urban areas. The latest estimates of the Planning Commission are based on the results of 43rd Round of NSSO which pertains to the year 1987-88, according to which the estimated number of persons below the poverty line in the rural areas in 1987-88 were 1959.80 lakhs The State-wise break-up of number of persons below poverty line in the rural areas is given in Statement (*See* below).

The Ministry of Rural Development had also initiated a survey of families below poverty line for the 8th Five Year Plan in November, 1991. The survey identifies all house-holds in rural areas having income below the poverty line. The number of families thus identified is available at the Village, the district and the State levels.

To provide employment to the rural poor, the Ministry of Rural Development is implementing two programmes—Jawahar Rozgar Yojana (JRY) and Employment Assurance Scheme (EAS)—to provide wage employment and the Integrated Rural Development Programme (IRDP) to provide self-employment. No specific time limit has been fixed by the Government to provide full employment to the entire rural poor.

Statement

Rural Population below poverty line as per 43rd round of NSSO (1987-88)
